Vision, Mission & Goals

Vision
That every Texan has the opportunity to live in safe, decent and affordable housing.

Mission
The Texas State Affordable Housing Corporation serves the housing needs of low, very low and extremely low-income Texans and other underserved populations, as defined by the Texas Legislature, who do not have comparable housing options through conventional financial channels.

Goals
To promote statewide partnerships that leverage public/private resources for the creation, preservation and/or redevelopment of affordable housing.

To increase lending and housing production in rural and underserved markets.

To develop loan products, financing options and special programs not available through conventional lenders.

To supplement the technical and financial capacity of other appropriate nonprofit organizations to provide for the multifamily and single family housing needs of individuals and families of low, very low and extremely low-income.

To achieve and ensure the Corporation’s self-sufficiency.
Corporation’s History

The Texas State Affordable Housing Corporation ("Corporation") was created by the Texas Legislature as a self-sustaining nonprofit entity to facilitate the provision of affordable housing for low income Texans who do not have comparable housing options through conventional financial channels. Enabling legislation, as amended, may be found in the Texas Government Code, Chapter 2306, Subchapter Y, Sections 2306.551 et seq. All operations of the Corporation are conducted within the state of Texas, and Corporate offices are located in Austin, Texas. A five-member board of directors appointed by the Governor with the advice and consent of the Senate oversees the business of the Corporation.

The Corporation is organized, operated, and administered in accordance with its enabling legislation as a 501(c)(3) nonprofit corporation in order to access additional sources of funding to accomplish its mission. The Corporation is an approved originating seller/servicer for single family loans with Fannie Mae, Freddie Mac, Ginnie Mae, U.S. Rural Development, FHA, VA, and the Community Development Trust, Inc. The Corporation has conduit sales agreements with Countrywide Home Loans, Inc., and Wells Fargo Funding, and with the Community Development Trust, Inc., for multifamily mortgage loans. The Corporation is also a non-member borrower of the Federal Home Loan Bank of Dallas.

Programs offered by the Corporation are provided at no cost to the state or its taxpayers. The Corporation does not receive any state funding, and is not subject to the legislative appropriations process.
Single Family
The Corporation offers four different programs for purchasing single family homes in the state of Texas.

The Corporation issues Single Family Mortgage Revenue Private Activity Bonds ("MRB’s") to finance the purchase of affordable single family homes under three separate programs: (1) the Professional Educators Home Loan Program, (2) the Fire Fighter and Law Enforcement or Security Officer Home Loan Program and (3) the Nursing Faculty Home Loan Program.

During the 78th Texas Legislature, the first two programs were established under Senate Bill 284 and House Bill 1247, respectively, and allocated $50 million of the State’s ceiling for private activity bond cap for the exclusive purpose of making single family mortgage loans to Texas Professional Educators and Firefighters and Law Enforcement or Security Officers (individuals/families) that are first-time home buyers.

These programs provide below market 30-year fixed rate mortgage loans to eligible first-time homebuyers through a network of participating lenders across the state. In addition to the low interest rate, these programs offer down payment and closing cost assistance, up to 5% of the loan amount, in the form of a grant. The programs are available statewide on a first come, first-served basis, to first-time homebuyers who wish to purchase a newly constructed or existing home within the state of Texas.

The programs continue to be extremely successful, with over 800 individuals/families achieving homeownership. A breakdown of the number of loans and loan origination amounts since the inception of the programs through 2005 is summarized below.

The Nursing Faculty Home Loan Program was created in 2005 by the 79th Texas Legislature under Senate Bill 132. This program will become available in late Spring 2006, making $5 million available to qualifying Nursing Faculty. The program will provide the same assistance as our other first-time homebuyer programs.

In an effort to serve families seeking to purchase a home who are not able to meet the traditional lending requirements, the Corporation developed the Affordable Homeownership Program for Texas. The program, developed through a partnership between Ameriquest Mortgage Company (“Ameriquest”) and the Corporation, provides borrowers with an affordable mortgage financing option...
that will allow them the opportunity to achieve the dream of homeownership. As a result of this partnership, Ameriquest has committed up to $100 million for mortgage loans and the Corporation has committed $1 million for down payment assistance to the program.

The initial release of the program was offered as a pilot initiative through local organizations including community development corporations, non-profits and other entities involved in affordable housing. With mortgage loans closed under the pilot initiative, the Corporation and Ameriquest will work with local organizations, builders, and other lenders throughout Texas in an effort to expand the availability of the program to Texans statewide.

Under the program, eligible borrowers have access to an affordable mortgage loan product and down payment assistance equal to five percent (5%) of the mortgage loan amount. In addition, the program rewards borrowers with lower interest rates and lower mortgage payments, for making timely mortgage payments. Borrowers can reduce their mortgage interest rate by up to two percent (2%) during the first 48 months of their mortgage loan. Borrowers will receive 50 basis points (.5%) reduction in their mortgage interest rate for every 12 months of on-time payments.

Ameriquest and the Corporation believe home buyer education is an essential component to success in home ownership. Under the program, borrowers will be provided pre and post-closing Home Buyer Education Training by ACORN Housing. Additionally, borrowers will have intervention assistance available to them during the life of the mortgage loan.

**Multifamily**

The Corporation offers financing options to multi-family developers through three different programs in an effort to achieve our commitment to provide safe, decent, and affordable housing to Texans who rent.

The Corporation offers funding to eligible multi-family projects in Texas under the **Private Activity Bond Program**. The program requires community participation so that local governments can be more involved in assessing and addressing their own local multifamily housing needs. The annual allocation available for funding is approximately $40 million. Non-profit and for-profit developers can use the funds to finance acquisition and rehabilitation or new construction. Developers are required to leverage the private activity bond funds by using Low Income Housing Tax Credits available through the Texas Department of Housing and Community Affairs.

In the fall of 2005, the Corporation researched the state’s strategic housing needs in coordination with the Texas Department of Housing and Community Affairs ("TDHCA") for the development of the 2006 State Low Income Housing Plan. During
2006, the Corporation targeted four specific areas of housing need; rehabilitation, senior housing, rural housing, and hurricane disaster area redevelopment. Four Requests for Proposals ("RFP") were issued at various times during 2006 and, with the exception of the GO Zone RFP, were available on a statewide basis. Unfortunately, the Corporation did not receive responses under any of these RFP’s. This was due to several factors including current economic/market conditions. The Corporation issued bonds in January 2005 in the amount of $14,260,000 to finance the Marshall Meadows Apartments in San Antonio. This development is currently under construction and, upon completion, will be a 250-unit multifamily apartment complex with sixty percent (60%) of the units set aside for low income residents.

The Corporation’s 501(c)(3) Multifamily Bond Program was created to finance the acquisition and rehabilitation, or new construction, of affordable multifamily housing units. Unlike the Corporation’s Private Activity Bond Program, the 501(c)(3) Bond Program is not restricted by volume cap; however, 501(c)(3) financing may not be used in conjunction with Low Income Housing Tax Credits. The program is available year-round to qualified non-profit developers, designated under the Internal Revenue Code as 501(c)(3) organizations, and may be used throughout the state of Texas. During its use and prior to changes to the program, the Corporation generated in excess of $400 million in bonds that produced over 10,000 affordable housing units.

The Direct Lending Program offers permanent long-term financing to developers focusing on increasing and/or preserving the stock of affordable multifamily housing, specifically in rural Texas, small cities, as well as other underserved and difficult to develop areas. Financing for the program is facilitated through the Corporation’s existing relationships with real estate investment companies that invest in affordable multifamily housing, specifically the Community Development Trust in New York ("CDT") and the Federal Home Loan Bank ("FHLB"). The program is available to for-profit and non-profit developers, municipalities, housing authorities, and others, engaged in affordable housing development. Projects may be comprised of scattered-sites, senior apartments, affordable assisted living, single family rental units and other nontraditional, multifamily, rental housing. All projects must have at least 24 units and satisfy Community Reinvestment Act ("CRA") criteria. The program is available year-round.

### Asset Oversight and Compliance

Asset Oversight of properties is required by many tax-exempt bond issuers, including the Corporation. Monitoring the financial and physical health of a property ensures not only the repayment of the bonds, but also that the property provides safe and decent housing. Compliance monitoring ensures that requirements set forth by the Internal Revenue Service ("IRS"), including the required number of affordable units, are being adhered to by property owners.

The Corporation accomplished several Asset Oversight and Compliance goals in 2005. In January
2005 the Corporation assumed complete responsibility for performing Asset Oversight and Compliance monitoring of the Corporation’s properties. This was due in part to the creation of an additional staff position in the summer of 2004. The ability to do this work in house has allowed us to ensure the quality and thoroughness of our reviews and to increase our net revenue.

In 2005 a quarterly newsletter was created to allow the Asset Oversight and Compliance staff to communicate important information along with helpful tips to the owners and managers of the properties we financed. The newsletter is saved in a PDF format and sent via e-mail to help keep the cost to a minimum.

The following charts show the numbers of portfolios, properties, units, revenue, site visits, and contracted site visits handled by the Corporation. Table 1 is in relation to the Corporation’s properties and Table 2 is in relation to Third Party Asset Oversight Properties.

**Other Services**

In 2005, through a partnership with the University of Texas at Austin and Blackland Community Development Corporation (“CDC”), the Corporation was able to facilitate the transfer of two single family homes to benefit the low and very low income individual and families living in the Blackland Neighborhood.

Blackland CDC, established in 1983, is a Community Housing Development Organization certified by the City of Austin serving the neighborhood located east of Interstate 35 between Manor Road and Martin Luther King Jr. Boulevard. Blackland CDC pioneered what the city now proudly calls Smart Growth in its own backyard more than 15 years ago, when it converted a quarter block into a complex of six homes for elderly residents arranged around a central courtyard. They have an established record for restoring houses and/or filling vacant lots within their neighborhood, further creating affordable housing for households earning no more than 60 percent of the AMFI for Austin. They currently have 35 rental units whose occupants are in the low and very low income range, averaging 33 percent AMFI.

The relocation of these houses is part of the Blackland 22nd Street Project and the CDC will offer the houses as rental units to low income families. One of the houses is an experimental solar home designed and assembled by students from the UT School of Architecture and competed in the National
Solar Decathlon competition in Washington, DC.

In 2006, the Corporation expects to transfer two more homes to Blackland CDC, donated by the University of Texas.

In August 2005 Hurricane Katrina ravaged Louisiana leaving Texas to temporarily house over 400,000 people. Corporation staff immediately posted information on the Corporation's website to help direct evacuees to assistance. Through our telephone helpline we were able to place 121 displaced individuals into apartment homes across the state of Texas. The staff also gathered and distributed needed items to the families we helped in the Austin area. In addition, two staff members spent 3 days in Houston helping match families to available apartment homes in the Houston area, along with meeting with city and state officials to determine a course of action for overall housing of hurricane evacuees in the state. During this time the compliance staff stayed in close contact with the TSAHC-financed properties to ensure that compliance requirements were being adhered to while housing the displaced families.
The Corporation is a strong advocate of supporting other affordable housing organizations in their efforts to educate and promote all aspects of affordable housing in the State of Texas.

During 2005, the Corporation continued its sponsorship of the Texas Statewide Homebuyer Education Program ("TSHEP") workshop series presented by TDHCA, which included a "Train the Trainer" program, "Marketing Your Homeownership Program for Maximum Impact" program, and two "Financial Fitness" programs. The Corporation also serves as the account administrator for TSHEP.

The Texas Low Income Housing Information Service supports low-income Texans' efforts to achieve the American dream of a decent, affordable home in a quality neighborhood, through developing public-private partnerships. This year the Corporation was one of many sponsors for the Annual Houser Awards honoring individuals whose efforts reflect a dedication to serving low-income Texans and their housing needs.

The Corporation participated as a sponsor for the Texas Affiliate of Affordable Housing Providers ("TAAHP") 2005 Texas Housing Conference. TAAHP serves as the member organization for affordable housing providers, primarily in the production of multifamily housing. Their mission is to increase the supply and quality of affordable housing for Texans with limited incomes.

The Texas Association of Local Housing Finance Agencies ("TALHFA") is a nonprofit organization established to plan, inform, and support the needs of local housing finance agencies in their mission to deliver affordable housing in Texas. The Corporation supports their mission and was a sponsor for the 2005 TALHFA Annual Conference.

The Corporation’s financial statements for the fiscal year ended August 31, 2005 were audited by Mikeska, Monahan & Peckham, LLP, Certified Public Accountants. The audit was conducted in accordance with generally accepted and government auditing standards. The Independent Auditors issued an unqualified report and there were no reportable conditions or audit findings.

The Corporation had total assets of approximately $95.7 million at the end of fiscal year 2005. Assets consisted primarily of restricted cash and investments held by the bond trustee totaling $83.2 million. These assets relate exclusively to the Corporation’s Single Family Mortgage Revenue Bond Program. Unrestricted assets included cash and investments of $5.4 million; the Corporation’s loan portfolio equaling $1.6 million and notes receivable related to the Multifamily Direct Lending and Private Activity Bond Program totaling $2.1 million. Total liabilities equaled $86.2 million at fiscal year end and included bonds payable and accrued interest on bonds totaling approximately $83.6 million.

Total assets increased $22.8 million during fiscal year 2005 primarily as the result of the issuance of Single Family Mortgage Revenue Bonds. Current assets exceeded current liabilities by $30.6 million at August 31, 2005 and total assets exceeded total liabilities by approximately $9,470,000.

Total operating revenues for fiscal year 2005 were approximately $5,346,000 and expenditures were $5,071,000 resulting in operating income of approximately $275,000. Nonoperating revenues totaled $132,000. The Corporation’s net income for the year ended August 31, 2005 was $406,354.
