COMMENTS:			
<ul style="list-style-type: none"> • The most common error found during the file review included discrepancies between the Unit Status Report (USR) and the Tenant Income Certification (TIC) or Annual Eligibility Certifications (AEC) regarding rent, income, effective dates and household size. The importance of maintaining an accurate Unit Status Report was discussed in detail with management, as well as the significance of updating rent in our system each time the housing subsidy amount changes. Management submitted USR discrepancy corrections for units 101, 105, 207, 216, 301, 307, 401, 507, 509, 510, 513, 603, 606, 607, 613, 615, 707, 909, 910, 1101, 1106, 1209, 1302, 1305, 1310, 1312, 1313, 1407, 1501, 1508, 1511, 1610, 1702, 1804, and 1902 prior to the completion and issuance of this report. • During the file review it was determined that the incomes listed on some of the TIC forms were either calculated incorrectly, entered incorrectly, or the documented income did not have proper supporting verification documented. Prior to the completion and issuance of this report, management corrected the TIC income discrepancies and/or provided necessary verification documentation for units 502, 607, 1209, and 1610. It is imperative that income verifications, income calculation, and total annual incomes are properly documented and maintained in the tenant file. It is the owner's responsibility to ensure program eligibility and program compliance are met. 			

If a new household moves in to any of the units with Findings (listed below), instead of submitting the required Corrective Action documents, submit with your response: the application for tenancy, all income and asset verifications, the executed Income Certification, and the 1st page of the lease for the new household occupying the unit.
