COMMENTS: The most common error found during the file review included discrepancies between the Unit Status Report (USR) and the Tenant Income Certification (TIC) or Annual Eligibility Certifications (AEC) regarding rent, income, effective dates and household size. The importance of maintaining an accurate USR and the significance of updating rent in our system each time the housing subsidy amount changes was discussed in detail with management. Management submitted USR discrepancy corrections for units 305, 405, 508,606, 703, 806, 1106, 1314, and 1504 prior to the completion and issuance of this report.

Observation:

- On the day of the site visit units 116, 1001, 1207 and 1605 either have a missing or incomplete AEC or TIC. Management stated that the missing certifications were completed but they just were not in the file and they needed some time to locate them. Prior to the completions of this report, the compliance monitor turned in all missing certifications and the properly completed AEC's. The Owner and Management staff is reminded that it is the Owners responsibility to maintain compliance with the affordable housing program which requires TICs and annual AECs. Failure to maintain program requirements, including tenant files, will result in findings.

If a new household moves in to any of the units with Findings (listed below), instead of submitting the required Corrective Action documents, submit with your response: the application for tenancy, all income and asset verifications, the executed Income Certification, and the 1st page of the lease for the new household occupying the unit.
