4) For mixed (low-income and market units) developments, are there any Next Available Unit Rule Violations?			X
5) Does the file audit indicate that staff needs additional training?		X	

COMMENTS: The overall organization of the files was great and the manager and compliance team seem to be doing an excellent job properly calculating income and determining eligibility. The most common errors found during the file review were discrepancies between the Unit Status Report and Tenant Income Certification regarding housing rent splits and income. The importance of maintaining an accurate Unit Status Report and making sure the items on the TIC match the USR were discussed with Management. Management turned in corrections for units 116, 207, 215, 413, 504, 509, 518, 803, and 804 prior to the issuance of this report

If a new household moves in to any of the units with Findings (listed below), instead of submitting the required Corrective Action documents, submit with your response: the application for tenancy, all income and asset verifications, the executed Income Certification, and the 1st page of the lease for the new household occupying the unit.
