Please ensure the Unit Status Report (USR) is completed fully and accurately with the most current household information (i.e., rent, housing assistance payment, number of household members, etc.). The USR is a tool used by TSAHC to ensure that the property is meeting set-aside requirements so it is imperative to submit accurate reports. COMMENTS: Based on a review of the tenant files during the onsite visit and a review of the previous year's report, it appears that file management is slightly improving however additional training should be provided. The following issues were noted during the file review.

Missing documents:

• Unit 40A: Tenant files is missing pages 6 and 7 of the application (these pages list types of household income). See Closed Finding.

USR updates required: Update rent, housing assistance rent, number of household members and/or entire household tenant information:

Units 2A, 7A, 13A, 47A, 31A, 35A, 40A, and 44A. See comment.

Missing Verifications or Clarifications:

- Unit 2A: The tenant's bonus was not calculated correctly. Management must recalculated income and revise the initial Tenant Income
 certification (TIC). The miscalculation did not affect the initial eligibility status. Prior to the issuance of this report, management
 submitted the corrected calculation page and provided TSAHC with a copy of the revised executed TIC on 3/26/2018.
- Unit 31A: The tenant disclosed she does not receive child support and states that her family assists her, yet the file does not contain
 clarification and/or verification on whether the family's assistance was monetary or not. Prior to the issuance of this report, management

Texas State Affordable Housing Corporation Compliance Review Observation Report

provided copies of the tenant's written statement disclosing her family did not provide monetary assistance. See Observation.

• Unit 40A: The file did not contain verification for the \$2,400 monetary value listed on the TIC. Prior to the issuance of this report, management submitted documentation to support that the tenant received monetary assistance in the month of \$200 a month at the time of move-in. This support the amount listed on the initial TIC. This Finding is closed.

Observations:

- Unit Status Report (USR): The USR is not being updated accurately. During the files review there was a lot of inconsistent
 information listed in the tenant file compared to the USR. The discrepancies are specific to household income, tenant rent and
 housing assistance rent amounts, and household information. It is imperative for management to collect and submit accurate
 information because the USR must reflect actual household information to ensure that all applicable set aside requirements are
 being met.
- Missing documentation and/or need for clarification: The reviewer is aware that tenant files are sent to a compliance department.
 Therefore, TSAHC strongly recommends that site management thoroughly review each tenant file after final approval to ensure that all items (i.e., application, TICs, and all supporting documentation) are well documented, verified, singed and placed back in the tenant file. Management is encouraged to ensure all documents are reviewed and screened proper verification and/or clarification is obtained

If a new household moves in to any of the units with Findings (listed below), instead of submitting the required Corrective Action documents, submit with your response: the application for tenancy, all income and asset verifications, the executed Income Certification, and the 1st page of the lease for the new household occupying the unit.
