COMMENTS: Management did a great job correcting Unit Status Report (USR) inconsistencies prior to the issuance of the Compliance Report. During the tenant file review, the reviewer noticed a few discrepancies between the income and the rent on Tenant Income Certification (TIC) and the USR. The discrepancies regarding rent were noted for units 2-0303 and 1-1001. Management is now aware that the current rent paid by the household and housing authority should always be reflected on the USR. Management also corrected the income on the USR for units 2-1112 and 1-0224 which was not updated at the time of the recertification. Management was made aware of the importance of updating the USR with the correct income after recertifications s are completed.

In addition to the USR inconsistencies, the reviewer noticed the Asset type was missing on almost all TIC's reviewed. Management stated the current software system they use (Yardi) was not auto populating this information even though it was entered. Management also stated this problem has been resolved. All TIC's were corrected prior to the completion of this report and none of the errors altered the eligibility of the household. Management was instructed to manually enter the Asset type if this issue were to reoccur.

If a new household moves in to any of the units with Findings (listed below), instead of submitting the required Corrective Action documents, submit with your response: the application for tenancy, all income and asset verifications, the executed Income Certification, and the 1st page of the lease for the new household occupying the unit.
