COMMENTS: Management did a great job correcting Unit Status Report (USR) inconsistencies prior to the issuance of the Compliance Report. During the tenant file review, the reviewer noticed a few discrepancies between the Tenant Income Certification (TIC) and the USR regarding income, and household size. Discrepancies for income were noted for units 333, 513, 534, 624, and 814. These files were all units with a recent recertification. Management was reminded to update the USR with the updated income after a recertification is completed. In addition, a difference was noted in household size for unit 624. It was apparent that these changes were an oversight as management is aware of updating these items as they change. The income adjustments were minor inconsistencies and the eligibility of the household was not affected

If a new household moves in to any of the units with Findings (listed below), instead of submitting the required Corrective Action documents, submit with your response: the application for tenancy, all income and asset verifications, the executed Income Certification, and the 1st page of the lease for the new household occupying the unit.
