COMMENTS: The tenant files, including the required tenant documentation were kept in and maintained in an organized order. Management did a good job making all necessary correction prior to the issuance of the report. Those discrepancies included unit 13 that had the incorrect number of household members on the Unit Status report (USR), unit 25 that had the wrong rent on the USR, and units 13 and 49 that had confusing information on the child support confirmation. The importance of maintaining an accurate USR was discussed with Management and the child support confirmation corrections did not affect eligibility.

If a new household moves in to any of the units with Findings (listed below), instead of submitting the required Corrective Action documents, submit with your response: the application for tenancy, all income and asset verifications, the executed Income Certification, and the 1st page of the lease for the new household occupying the unit.
