COMMENTS: Management did a great job correcting Unit Status Report (USR) inconsistencies prior to the issuance of the Compliance Report. During the tenant file review, the reviewer noticed a few discrepancies between the Tenant Income Certification (TIC) and the USR regarding rent, income, and household size. Discrepancies for rent were noted for units 502 and 1005. In addition, differences in income were noted for units 502, 505 and 1005. Last, inconsistencies in household size were identified for units 301 and 602. It was apparent that these changes were an oversight as management is aware of updating these items as they change. Management was instructed to update the USR each time a rent change occurs, or a re-certification is completed. The income adjustments were minor inconsistencies and the eligibility of the household was not affected.

If a new household moves in to any of the units with Findings (listed below), instead of submitting the required Corrective Action documents, submit with your response: the application for tenancy, all income and asset verifications, the executed Income Certification, and the 1st page of the lease for the new household occupying the unit.
